

Summer Term

Overview

How did the Suffragettes impact Britain?

Our Big Question:

How are we different? How are we the same?

This term, we will be learning:

History: We will be learning about the Suffragettes and their impact on Britain.

Geography: Revisiting previous Topics to secure knowledge and understanding.

Science: Electricity: to recap previous knowledge of electricity and apply skills and knowledge to create a board game.

RE: We will be learning about vows and commitments and how these affect certain relationships.

PE: We will be learning and practising new skills in athletics, tag rugby and football.

Music: Theme and variations (Theme: Pop Art) & Composing and performing a Leavers' song

French: learning and practising how to speak and write: What is/isn't possible using nouns and verbs in relative clauses.

Art: 3D sculpture - we will learn to represent memories through art, using various materials and techniques.

D&T: cooking and nutrition- to select recipes to create a three course meal.

Computing: we will learn to create and work with spreadsheets.

PSHE: we will be learning about economic well being, drugs and then SRE.

Other Information:

PE days will continue to be on Thursday

Ensure that your child is completing homework tasks and any additional homework set by teachers in the run up to SATS

SATS week will commence on the week beginning 11th May

Please ask your child's teacher if you have any questions or concerns regarding SATS

MORE INFO

English

Writing:

We will be writing short persuasive pieces to convince people to act in a more sustainable way.

We will be reviewing, editing and revising our work from this year to ensure that children have sufficient evidence

We will be writing short formal and atmospheric pieces of writing as well as scripts

Reading:

Reading - Reading scripts to support the Year 6 Leavers Production

SPAG:

Revising and using all that has been learnt over KS2

Maths

Maths:

In Maths we will be learning how to solve algebraic formulas and equations.

We will also be learning how to solve ratio and proportion questions.

Children will also have the chance to revise, revisit and recap all the learning we have done this year, in order to prepare for SATS as well as their transition into Year 7.

Science

Science:

Electricity:

We will be comparing and giving reasons for variations in how components function.
